# Satisfaction among the students on E-learning

BACKGROUND :
Due to the Covid pandemic situation most of us are blocked under the roof. This situation affected different people, different domain in different ways. Even in worst case most countries have higher death rates and most of the developing countries facing economical crisis as well. Likewise learning process has shifted from direct physical education to online education to prevent the spread of Covid-19 virus. However the evaluation of e-learning process has some critical areas to adapt for the students. To create a powerful e-learning system that produces efficient learning outputs, it is necessary to assess the satisfaction among the students on e-learning.

PURPOSE :
This survey is mainly designed for the undergraduate students from Sri Lanka to identify and predicting satisfaction among the students on e-learning under the pandemic situation
